The Dining Hall.

In the past here at school we had meals but not everyone ate meal. Not everyone had meal because there were bullies who would take other children's food, because we ate outside.

The good thing about dining hall

Then came a sponsor who sponsored us by building a dining hall. Everyone was excited because we could have different meals and exciting functions. Everyone could eat, whether you are rich or poor. The dining hall has brought a lot of happiness to lot of children and they can concentrate in class now everyone is able to come to school happily. The ladies who serves us they are so friendly they are like our mothers. They cook delicious food and when there's left overs they give us more. They are clean and neat they also teach us table manners.

The dining has brought a lot of change to our lives.

THANK YOU!!!
