The dining hall.

Past

In the past the meal was not for everybody and we were eating outside and eat meal rice and soya. We were not excited because if the dust come our food become dirty and have the dust. Our food were not safety because they let someone can come and grab your food. We were not safety, protected and we do not have right place or good place to eat.

Presently

Sponsors build a dining hall so that we can eat in the dining hall. In a dining hall we now eat vegetable and fruits and we now safety. The ladies in the dining hall are friendly and if there is the left over you can go and repeat again. When we are sitting we can have table-manners.

The Good ~~and~~ about
the dining hall
