## CHANGE in School.

I like the dining hall because in the morning we eat porridge in the morning so that we can get energy to study in class. And at lunch we eat healthy food that has vegetables. After eating sometimes we get some fruits like apples. and we don't have to worry about eating in class when it's raining. The other kids don't have to eat one meal per day. we won't eat outside again and we thank the sponsors who organized the dining hall. we won't eat the food that has dirty stuff when we eat outside we are so happy to have a dining hall and we are the luckiest school in Katchong that has won the R60 000 we are all ~~excite~~ excited to eat in the dining hall.
