Soccer
fever...

Pre-school Program

One of the themes this term was Road Safety.

Arts, crafts and the kids handiwork centered around this theme.

The 2-3 year olds play away their life in the nice warm winter sun.

The Soccer World Cup is finally here and the children loved the vibe and soccer activities. The after-schoolers built a small soccer goalpost for the toddlers. The toddlers painted it and the soccer fun began.

Ubuhle visited a pre-school in town called Mossienes for more soccer-fun activities.

A group of peer-educators from a local private school Cultura Park visited the centre and brought educational toys & posters for the toddlers. They provided a meal and played games with the kids.

World Cup Opening Celebration

Our kids were invited to sing and dance at the neighbouring Arabian Horsefarm as they celebrated the opening of the World Cup.

The little ones said poems and sang.

The girls did traditional dancing.

The boys performed a gum-boot dance.

Training Offered

Thoko and her team are fast becoming experts in the pre-school field. They trained 5 ladies from other pre-schools in the past quarter. This helps generate much needed income for our project.

Ubuhle Cottage School

The second term of the school has now been completed. We had a great parents evening. The kids sang songs and cited poems for the parents.

They baked all the eats for the parents evening.

They finished the bunnies they were making with Aunti Anta.

Holiday Club

The afterschoolers enjoyed the holiday club. It was filled with fun games and mastering challenges with sticks.

Thank you to Wilhelm and Marish for running the holiday club for us!

Support Group

A support group for the caregivers of the children resulted in a small craft team producing items to sell to improve the income levels of their households. Items include mostly crocheted clothing i.e. skirts, tops, hats, jackets etc.
